

I strongly disagree with the submitted changed to pre-empt the WI NO Call Law and allow so many more calls to be made by the Bankers Association Members.

I pay for my telephone, and should have protection on the types of calls that can be made to it.

I do not believe that someone should be able to call me, when I just call to ask for hours of operations, and then you plan to allow them 90 days to continue to call me-that is completely outrageous. As a citizen of WI, and the USA-I strongly urge this to not happen, and to allow me the continual peace that the WI No Call Program Law has allowed my home to have!

Say no to those members of the Consumer Bankers Association!
